Each of our six weekly Lenten spiritual journey presentations will focus on ***Finding Hope in Challenging Times***. We will explore the events of Lent, leading to the Passion and Easter, in the context of today – the feelings of polarization, distress, anxiety, fear, worry, loss, grief – with knowledge and experience of seeing through those conditions or feelings and moving forward – through mercy/forgiveness, dialogue/respect, courage, faith/surrender, and gratitude. We will experience Lent from the perspective that we know how the story turned out – for the better. It's not just history – it's how we can approach events and have hope in our world today, too.

The program is offered without a fee, but we welcome at-will donations to offset the centers' costs to create and present the program. For more information about the weekly sessions, visit the LARCC website by clicking [here](#).
